WARRANTY V MAX and V MAX +

AAT Alber Antriebstechnik GmbH grants a warranty of two years for all its products of type v-max including all its accessory parts with the exception of the sealed lead acid batteries and tyres and tubes. The warranty begins at the date of purchase and covers faulty material and manufacturing defects.

For the sealed lead acid batteries, always assuming correct maintenance, AAT Alber Antriebstechnik GmbH grants a warranty of 6 months from the date of purchase.

The warranty becomes void concerning defects or damage which are the result of the following:

- damage due to excessive strain
- damage due to improper handling
- violent damage
- natural wear and tear such as toothed driving belt, toothed segments, wheel chair wheels, driveshaft
- improper and insufficient maintenance
- unauthorized constructional changes or inappropriate use of the device or its accessories
- using the v-max exceeding its maximum lifting capacity
- improper charging of the lead batteries

Liability

The manufacturer AAT Alber Antriebstechnik GmbH is neither liable nor responsible for potential damage of the v-max in case of:

- improper handling of the device
- repair, assembly or other work performed on the V Max by unauthorized persons
- operation not in accordance with the user's manual
- extraneous parts added or connected to the v-max
- parts removed from the v-max+
- operation exceeding the maximum seating capacity
- no regular maintenance check performed by authorized personnel
- operation of the v-max with insufficiently charged batteries.
