VIPAMAT HIPPOCAMPE WARRANTY

This product is guaranteed 2 years for parts and labour starting from the date of purchase (as proved by the sales receipt). The guarantee consists in replacing defective parts. This guarantee does not apply when the product is used for unauthorized purposes and does not take into consideration wear of parts due to use of the wheelchair.

CAUTION!

The Hippocampe wheelchair is water-resistant; its aluminium, plastic and stainless steel components come from the nautical and bicycle industries. But, like all materials that come into contact with seawater (wetsuits, kayaks, boat engines, etc.), the Hippocampe must be rinsed after any use.

Without this regular maintenance, salt deposits can damage its structure.

The Vipamat company denies any responsibility concerning damage due to such neglect
